Dear parents, sisters. Hope you are feeling fine is my daily wish. I will now answer the welcome letter that I got today. It was so good to hear that you have your health and feel fine and I have the same good gift.

Soon we will have Christmas and I wish I could come home, but I'll have to live on that hope one more year. You probably didn't think I'd come home and I hadn't planned much on it because I think I'll go to Chicago and if I get work will stay there till next fall when threshing starts. Then when threshing is finished I will come home. So am I planning now? This if I live and God is willing. He has my way planned and I must go where that is.

Well, I must wish you a glad and lucky Christmas and a good new year, and may God be with us all on our separate paths - then all will go well. If we have Him then we have enough wherever we are.

I wonder if Ida will come here. I don't know what it is with her, she writes so seldom. If you girls want to come here then it would be best if you come as soon as Amanda comes home for the winter. If you wait till then she can tell you about the trip. If I go home I may stay home a year and you can't wait that long. I haven't seen Amanda for a long time so I don't know for sure if she'll come home, but I believe she will.

I am thru picking corn. I am going to have an auction so it is only three days more that I will have four horses. I am also going to sell some machinery, then I will go (to Chicago).

When you write tell me all the news. You know it is good to hear the news from Sweden. Tell me if all the Hamneda girls are married by now or if there are any left for me when I come home.

I must now close for this time. Greet all acquaintances, but first you are greeted, my dear parents and sisters.

Frank Lindgren

I will greet you from John and his wife. Write soon again.
